# Tobacco Stocks Report

## as of January 1, 1965

U. S. DEPARTMENT OF AGRICULTURE  
CONSUMER AND MARKETING SERVICE,  
TOBACCO DIVISION

The Tobacco Stocks and Standards Act provides for a quarterly report of tobacco stocks. These reports, based on information filed by manufacturers, dealers, and others, are prepared by the Tobacco Division of the Consumer and Marketing Service.

Stephen E. Wrather  
Director, Tobacco Division.

Stocks of foreign-grown cigar leaf - FARM-SALES WEIGHT . . . . .	18-19

STOCKS OF LEAF TOBACCO OWNED BY DEALERS AND MANUFACTURERS 1/ 2/

Total stocks of leaf tobacco considerably higher than a year ago

Leaf tobacco stocks in the United States and Puerto Rico totaled 5,612 million pounds (farm-sales weight) as of January 1, 1965, based on the quarterly reports of dealers and manufacturers. This is an increase of 361 million pounds in leaf inventories compared with the previous January 1 (5,251 million) and is an all-time high. Larger stocks of flue-cured and burley were the principal factors in this overall increase. Stocks of imported cigar leaf also were at an all-time high.

Marketings by tobacco growers of the 1964 crop prior to January 1, 1965, totaled approximately 1,915 million pounds, or 84 percent of the production. About 1,835 million pounds were sold in the corresponding period last year, representing about 82 percent of that year's crop.

Stocks as of January 1 included about 1,372 million pounds (farm-sales weight) of leaf tobacco under Government loans, up 390 million from a year ago. Larger flue-cured and burley loan holdings accounted for most of the increase. Loan stocks as of January 1, 1965, were divided as follows: Flue-cured, 970.5 million pounds; burley, 317.4 million; Maryland, 16.2 million; fire-cured, 40.6 million; dark air-cured, 20.8 million; and cigar leaf, 6.3 million.

---

1/ Figures quoted for type totals in this summary are the farm-sales-weight equivalent of reported stocks except foreign-grown leaf which is converted to an unstemmed equivalent basis only. (See tables in body of report for reported weight basis.) This report is issued quarterly.

2/ All Government loan stocks are reported by Grower Cooperatives, which are considered dealers for stocks-reporting purposes.

## CIGARETTE-LEAF STOCKS

Flue-cured stocks at all-time high, burley and Maryland up substantially from January 1, 1964  
Oriental about the same

Stocks of flue-cured tobacco totaled 3,033 million pounds as of January 1, 1965--an increase of 153 million over those reported the previous January 1 (2,880 million), and 216 million above those reported 2 years ago. Marketing of the 1964 crop was completed by January 1, with producers' sales totaling 1,379 million pounds, about 15 million more than the 1963 crop (1,364 million).

Burley tobacco holdings this January 1 were 1,680 million pounds--160 million above the stocks of a year ago (1,520 million). Sales of the 1964 crop on the auction markets prior to January 1 this year totaled about 494 million pounds, or about 80 percent of the crop. About 60 percent of the 1963 crop was marketed through the corresponding date a year earlier.

Maryland stocks as of January 1, 1965, were 82.5 million pounds--5.9 million more than those reported a year earlier (76.6 million).

Stocks of foreign-grown cigarette and smoking tobacco (Turkish and other) were 258.7 million pounds--2.4 million more than inventories of a year ago (256.3 million).

## DARK TOBACCO STOCKS

Holdings of fire-cured and dark air-cured stocks larger than on January 1, 1964

Fire-cured tobacco stocks, reported as 109.1 million pounds on January 1, 1965, were larger than those of a year ago (103.3 million). Increases in inventories of the Kentucky and Tennessee types more than offset a decrease in the Virginia type. Virginia fire-cured holdings on January 1, 1965, were 19.3 million pounds; Eastern District Kentucky and Tennessee fire-cured, 71.0 million; and Western District, 18.8 million. Sales of the 1964 crop of type 21 on the auction markets prior to January 1 were about 7.6 million pounds (3.3 million up to the same date a year ago). Markets in types 22 and 23, as is customary, did not open until after January 1.

Holdings of dark air-cured tobacco totaled 66.6 million pounds on January 1, 1965--2.4 million more than were reported a year earlier (64.2 million). Stocks of type 35 increased, and those of types 36 and 37 were a little lower. One Sucker stocks on this January 1 were 40.6 million pounds; Green River, 21.4 million; and Virginia sun-cured, 4.5 million. Auction sales prior to January 1 totaled around 12.1 million pounds (8.3 million the previous year for the same period).

## CIGAR LEAF STOCKS

Filler stocks up from a year ago  
Binder and wrapper stocks down  
Imported cigar leaf stocks at record level

Holdings by dealers and manufacturers of all domestic types of cigar leaf tobacco were reported as 282.0 million pounds (farm-sales weight) on January 1, 1965 (283.5 million a year earlier). Stocks of foreign-grown cigar leaf totaled 97.0 million pounds (unstemmed equivalent) on this January 1 reporting date--38.2 million more than holdings on the same date a year earlier (58.8 million), and 13.8 million above stocks as of October 1, 1964 (83.2 million).

Cigar filler type stocks totaling 187.7 million pounds were 7.5 million larger than those of a year ago (180.2 million), although Ohio filler showed a small decline. Pennsylvania Seedleaf stocks this January 1 were 125.6 million pounds; Ohio filler, 16.8 million; and Puerto Rican, 45.3 million.

Stocks of cigar binder types were 67.1 million pounds on January 1, 1965 (74.2 million on the previous January 1). Holdings of all types were a little lower as compared with a year ago. Stocks of Connecticut Valley Broadleaf this January 1 were 13.5 million pounds; Connecticut Valley Havana Seed, 9.5 million; Southern Wisconsin, 21.6 million; and Northern Wisconsin, 22.5 million.

Shade-grown cigar wrapper stocks this January 1 were 27.2 million pounds--down 1.1 million from the figure reported a year earlier (28.3 million). Stocks of both types were lower as compared with the previous January 1. Stocks of Connecticut Valley Shade on January 1, 1965, were 17.0 million pounds, and of Georgia and Florida Shade, 10.2 million. It appears likely that all of the 1964 crop of 20.9 million pounds was in stocks on January 1, 1965.

Stocks of Cuban (Havana) leaf were reported at 12.2 million pounds--a decrease of 6.7 million from a year ago. Holdings of Philippine Islands (Manila) at 23.9 million pounds were 9.5 million more than on last January 1. Stocks of Indonesian leaf were 5.5 million pounds (up 2.8 million), Brazilian 10.3 million (up 5.5 million), Colombian 15.3 million (up 6.9 million), Dominican Republic 20.2 million (up 11.0 million), Paraguay 3.0 million (up .5 million), and other foreign-grown 6.5 million (up 3.7 million).

## STOCKS OF TOBACCO SHEET (see table 5)

Stocks represented in tobacco sheet show increase

Stocks of leaf represented in inventories of "tobacco sheet" totaled 8.1 million pounds (reporting weight), compared with 7.4 million on the previous January 1. Of the total in "tobacco sheet" this January 1, 5.3 million pounds were for use in cigarettes and smoking tobacco, and 2.8 million for cigar binder and wrappers.

Table 1.--Factors for adjusting stocks reported by dealers and manufacturers to a farm-sales-weight equivalent, by types of tobacco

AUCTION MARKET AREAS (Types 11-37) 1/

Cigarette and smoking tobacco .....	90	1.333	1.466	1.10			

1/ Types 11-37 are reported on the basis of packed weight.

2/ Farm-sales-weight equivalent based on unstemmed sweated weight factor.

3/ The instructions for reporting unstemmed cigar-leaf of the domestic types require that dealers and manufacturers indicate the weight basis on which the tobacco is reported, namely, farm-sales weight, marked weight, or sweated weight. The stocks are converted to the farm-sales-weight equivalent on the basis of average factors reflecting the percentage reported each quarter in each of these three categories.

\* Factors for stemmed flue-cured revised as of January 1, 1965; intermediate factors used for July 1 and October 1, 1964 stocks of 1.288 and 1.443.

Table 2.--Stocks of leaf tobacco owned by dealers and manufacturers, by types, converted to a farm-sales-weight equivalent, January 1, 1965, compared with other quarters 1/ 2/

## FARM-SALES WEIGHT

Total All Types	11-90	5,612,526	5,250,800	5,104,433*	5,032,767*	4,922,412*	5,314,202

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ For factor used in converting weights see table 1. Conversion factors for stemmed stocks for some domestic types of tobacco slightly revised for use beginning July 1, 1964 from those previously used. No revisions were made in previously published figures. Farm-sales-weight equivalent of stocks of imported tobaccos shown in table A page 18.

3/ For explanation of stocks included in this classification, see footnote 5 on page 14.

4/ Foreign-grown leaf is converted to an unstemmed equivalent basis. Also see footnote 2.

\* Revisions.

1964	5.4	-	2.6	8.0	3/ 7.6	15.6				

1/ Annual disappearance for a type is calculated for the marketing year established for that type, the year beginning on the quarterly reporting date on which stocks of the type are at their lowest point and before the new crop enters stocks.

2/ The carryover stocks have been tabulated separately according to broad groupings of ownership, namely manufacturers, under loan, and all other. "Other" reflects stocks reported by tobacco dealers and stocks held in the United States by representatives of foreign manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export.

3/ December 1 estimate, U. S. Crop Reporting Board, SRS.

Table 4.--Stocks of leaf tobacco, including leaf in tobacco sheet 1/, by types and, where applicable, by groups of grades, owned by dealers and manufacturers, January 1, 1965 compared with January 1, 1964, and October 1, 1964

1/ Represents leaf tobacco in stocks of reconstituted or processed tobacco sheet. 2/ Subject to revision.

3/ Summary according to groups of grades reflecting a broad quality breakdown of total cigar leaf stocks.

4/ Includes Puerto Rican on the Island, Type 46. 5/ Although Type 73 is defined as all domestic types of tobacco not otherwise classified, the bulk of the stocks reported in this type consists of cuttings, clippings, and trimmings. This is the result, in most instances, of the inability of reporters to designate cuttings, clippings, and trimmings in the "S" group of the types to which they properly belong.

\* Revisions.

Table 5.--Summary of tobacco leaf represented in inventories of tobacco sheet, for cigar binder and for cigarettes (including smoking tobacco), separately 1/

1/ Total includes stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners subject to provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress. The quantities owned by dealers and manufacturers have been tabulated separately on a type total basis.

3/ This table should be considered as representing only the approximate quantities owned respectively by dealers and manufacturers. The quantities shown as owned by manufacturers include tobacco which is held under dealer registries of manufacturers and also tobacco held by dealers and known to be purchased on order for foreign or domestic manufacturers. The quantities shown as owned by dealers may include some tobacco held by dealers which is earmarked for sale to domestic manufacturers or for export. All Government loan stocks are included as dealers holdings.

4/ Includes stocks on the Island of Puerto Rico.

5/ For explanation of stocks included in this classification see footnote 5 on page 14.

Table 7.--Stocks of leaf tobacco owned by dealers and manufacturers, summary by types, January 1, 1965 compared with other quarters 1/ 2/

1/ Totals include stocks of leaf reported in tobacco sheet. See separate reporting in tables 4 and 5.

2/ These statistics represent the quantity of leaf tobacco reported as owned by all leaf tobacco dealers, manufacturers, Quasi-manufacturers, growers' cooperative associations, warehousemen, brokers, holders, and owners except (a) the original growers of tobacco; (b) manufacturers who in the first three quarters of 1964, according to the returns of the Commissioner of Internal Revenue, manufactured less than 35,000 pounds of tobacco, less than 185,000 cigars, or less than 750,000 cigarettes, pursuant to the provisions of the Tobacco Stocks and Standards Act approved January 14, 1929, and the amendments thereto passed in the 72nd and 74th Congress.

3/ Subject to revision.

4/ For explanation of stocks included in this classification see footnote 5 on page 13.

\* Revisions.

TABLE A.--Stocks of foreign-grown tobacco - FARM SALES WEIGHT 1/

The conversions of imported tobacco stocks shown in this table are for comparative purposes with the farm-sales-weight equivalent of United States-produced tobaccos. Stocks, overall supplies, and disappearance of the domestic types are quoted in terms of the farm-sales-weight equivalent, and the conversion of imported tobacco stocks to this basis provides a more realistic comparison. Previously, stocks of imported tobacco had been converted only to an unstemmed-equivalent basis and are continued on this basis in Table 2. Also, the actual reported weight of overall leaf inventories will continue to be shown in Tables 4, 5, 6, and 7.

1/ Stocks of foreign-grown cigar leaf (unstemmed equivalent) are converted to farm-sales-weight by multiplying by the factor 1.16.

2/ Prior to July 1, 1962, stocks from Brazil, Colombia, Dominican Republic, and Paraguay were not reported separately, but were included under Other Foreign-grown Cigar Leaf, Type 84 (beginning July 1, 1962, Other Foreign-grown Cigar Leaf is designated as Type 88).

\* Revisions.
